

Copyright Licence for Pharmaceutical Companies

In the pharmaceutical industry – where exchanging information about the latest medical and scientific advances is critical – it's easy to breach copyright laws by inadvertently copying and sharing content without permission.

Most literary works are covered by copyright. If your employees copy and share text, tables, graphs or images that were created by others, they'll usually need permission from the copyright owner to do so. This includes content from:

- Journal articles
- Clinical and research papers
- Newspaper and magazine articles.

Our **Copyright Licence for Pharmaceutical Companies** gives your employees the freedom to legally copy and share third party literary content. As we pay royalties to the creators whose works you reuse, you'll foster the creation of new content which will benefit your organisation in the future.
