## MAY 2016 DISTRIBUTION OF LICENCE FEES FROM UNIVERSITIES

---

May 2016

**This information is for recipients of Copyright Agency licence fees from universities in May 2016.**

The May 2016 distribution of licence fees from universities will follow the same approach as previous distributions of licence fees from universities.

The amount for distribution is approximately \$12.5m, being licence fees for January to June 2016.

The data for allocating the licence fees is drawn from surveys of usage in universities carried out by AMR on behalf of Copyright Agency. We survey in eight universities a year. To reduce variations in allocations, we use data from each survey twice. The data for this distribution is from eight universities that were surveyed from September 2014 to November 2015. The data from the first four universities was used before in the December 2015 distribution, and the data from the second four universities will be used again in the December 2016 distribution.

Licence fees are apportioned into a series of 'pools' reflecting:

- use type: 'digital' and 'hardcopy'
- course type
- work type: text, music, images
- if a work was used in a coursepack
- whether an image was copied with or without text.

### SHARING PAYMENTS

We send recipients a [payment summary](#) and a [payment spreadsheet](#) with each payment. These indicate if you need to check your obligations to share a payment with others (for example, under a publishing agreement).
