

<b>2020 DISTRIBUTION: LICENCE FEES FROM INDIVIDUALLY LICENSED EDUCATION INSTITUTIONS</b>											
<b>1. BACKGROUND</b>	Copyright Agency has individual licences with more than 1,000 education institutions, such as commercial colleges, adult education and independent universities. The licence fees from these institutions are distributed annually. There is limited usage information from these institutions, so we use data that indicates content that is available to that sector to copy, as well data we have about actual usage.										
<b>2. CHANGES SINCE PREVIOUS DISTRIBUTION OF LICENCE FEES FROM THIS SECTOR</b>	<p>The main change is data from FLEX, our online content management system adopted by a number of institutions. We have data from 7 institutions on the content they have managed using FLEX, as well as data on digital originals supplied by our publisher partners.</p> <p>Other changes:</p> <ul style="list-style-type: none"> <li>• review of the relative proportions for publication types, based on the results of a high-level survey in 2016;</li> <li>• a simplified methodology for allocating the pool for newspapers, based on the titles in data from the media monitoring companies; and</li> <li>• given we are using the same methodology for government licence fees, we are combing the newspaper pools from individually licensed education institutions and government into one distribution.</li> </ul>
